**Subject:** [Non-DoD Source] RE: Proposal No. 27025; Artificial Intelligence for Tactical Logistics; PI Walter; PO Short  
**Attachments:** Small Business Subcontracting Plan Proposal 27025.pdf  
**Signed By:** dmy106@arl.psu.edu

Good afternoon,

Please see the attachment. Is this what you needed? My apologies for not including this in our package and we will start adding this to them going forward when needed.

We have a Small Business Subcontracting Plan in place at the overall contract level for our NAVSEA contract, and do not include them for the proposals. That is why we missed including these because we were submitting the "ONR Pilot Proposal packages" mirroring the NAVSEA process.

It's my understanding they should be submitted for anything over \$700k. Please let me know if this is incorrect.

Regards,

Thank you!

I am having trouble locating the subcontracting goals for Penn State. If I remember correctly, Penn State has a Master Subcontracting Plan, and only submits a Goals sheet per proposal.

Does this sound right? If so, could you please provide a copy of the subcontracting goals for AI for Tactical Logistics?

V/R,

Good Morning David,

Could you please state if Penn State has submitted their required annual VETS-4212 Report for FY18?

V/R,

Michelle Parrott

Good morning. I hope you are staying warm down there in this wonderful polar vortex. Who knew that was actually a thing?

Anyway, I wanted to follow up with you on the subject proposal to get a status. This was the first proposal we submitted under the "pilot program" back in September so we have several interested parties on both sides who are interested in the progress.

When I spoke to Brian Bradley a few weeks ago, he mentioned this could hopefully be awarded by the end of January. Are we close?

Thanks in advance, and feel free to give me a call if you need anything on any of our proposals.

Regards,

Good Afternoon,

I am the Contracts Specialist assigned to processing this award package. While reviewing it, I had a few questions:

Could you please provide payroll data supporting the pay rate for each of the following labor categories?

Principal Investigator

R&D Engineer 4

R&D Engineer 4

R&D Engineer 4

R&D Engineer 3

R&D Engineer 3

R&D Engineer 3

R&D Engineer 2

Programmer/Analyst 3

R&D Engineer 1

Additionally, could you please provide a copy of your confirmation of the VETS-4212 filing?

I look forward to working with you. Please let me know if you have any questions or concerns.

V/R,

Michelle Parrott
